

Technique to Dispel the Darkness

From Weekly Audio Message - October 24, 2012

Today we will perform the steps to keep our path clear as the clouds of darkness are disrupted and swept away from their locations in Creation. Yes. These are the Steps to Create a Shield from these clouds. Do we each have a Dark Violet Wheel of Transformation?

Place this wheel in the left hand. Place a BioOscillator in the right hand. Now, slowly, turn in a clockwise direction bio-oscillating out in all directions. At this time we say, 'Mighty Eternal Light, Dispel the Darkness'. It is best if this activity is performed in the presence of the Great Seal of Genesis. Standing beneath the Great Seal, bio-oscillate in all directions. We will repeat the saying three times—'Mighty Eternal Light, Dispel the Darkness, Mighty Eternal Light, Dispel the Darkness, Mighty Eternal Light, Dispel the Darkness'.

The Blessed Dark Violet Wheel of Transformation targets the dark clouds for the BioOscillator to dispel. In this way we clear the atmosphere. This is important to perform for each house. This will generate a Blessed Cosmic Wind, an influence to Dispel the Clouds of Darkness. This is very important at this time.
